INDEX

Amphibians, tailed, Vascularity in the brains of. II. *Necturus maculosus* Rafinesque (Craigie), 395
Antarctic exploration, see Symposium on American polar exploration
Arctic exploration, see Symposium on American polar exploration

Baker, James G., Solid-glass Schmidt camera and a new type nebular spectrograph, 323
— Family of flat-field cameras, equivalent in performance to the Schmidt camera, 339
Bartlett, Harley Harris, Reports of the Wilkes Expedition, and the work of the specialists in science, 601
Bartlett, Robert A., Peary's extended exploration of Arctic lands culminating in the attainment of the North Pole, 935
Barton, George A., Palaeolithic beginnings of religion—an interpretation, 131
Blood cells, red, Studies on destruction of (Ham and Castle), 411
Bonn, Moritz J., Economics of the totalitarian states, 77
Bryan, G. S., Purpose, equipment and personnel of the Wilkes Expedition, 551
Byrd, Admiral, Flight to the South Pole and exploration of Marie Byrd Land (Saunders), 801

Camera, Solid-glass Schmidt, and a new type nebular spectrograph (Baker), 323
— Flat-field, equivalent in performance to the Schmidt camera (Baker), 339
Castle, William B. (with Thomas Hale Ham, see Ham)
"Chiffre Carré," Blaise de Vigenère and the (Mendelsohn), 103
Cloud chamber photographs, stereoscopic, Apparatus for viewing and measuring (Jones and Ruark), 253
Conklin, Edwin G., Connection of the American Philosophical Society with our first national exploring expedition, 519
Cooley, Mary E., Exploring expedition in the Pacific, 707
Coral islands, James Dwight Dana's studies of (Hoffmeister), 721
Craigie, E. Horne, Vascularity in the brains of tailed amphibians. II. *Necturus maculosus* Rafinesque, 395

Dana, James Dwight, studies of volcanoes and of coral islands (Hoffmeister), 721
Darrow, Karl K., Status of nuclear theory, 351
DeHaven, Kane and Hall, Arctic voyages and discoveries of (Ekblaw), 877

East, E. M., Distribution of self-sterility in the flowering plants (Completed by Karl Sax), 449
Eclipsing variables, Masses, radii, and other absolute dimensions for (S. Gaposchkin), 291
Ekblaw, W. Elmer, Arctic voyages and the discoveries of DeHaven, Kane and Hall, 877
Ellsberg, Edward, Drift of the *Jeannette* in the Arctic Sea, 889
Ellsworth's flight of 1935, Demonstration of the peninsularity of Palmer Land, Antarctica, through (Joerg), 821

Fishes obtained by the Wilkes Expedition, 1838–1842 (Fowler), 733
Fowler, Henry W., Fishes obtained by the Wilkes Expedition, 1838–1842, 733

Gaposchkin, Sergei, Masses, radii, and other absolute dimensions for 224 eclipsing variables, 291
Glaciers of Antarctica (Gould), 835
Gould, Laurence M., Glaciers of Antarctica, 835
Greenland, Peary's transections of, 1892–1895 (Lee), 921

Hall, DeHaven and Kane, Arctic voyages and discoveries of (Ekblaw), 877
Ham, Thomas Hale, and William B. Castle, Studies on destruction of red blood cells, 411
Hayes, Carlton J. H., Novelty of totalitarianism in the history of western civilization, 91
Heaton, Herbert, Discussion of totalitarianism, 89
Herzfeld, Karl F., Theory of light absorption in simple aromatic compounds, 359
Hobbs, William Herbert, Discovery of Wilkes Land, Antarctica, 561
Hoffmeister, J. Edward, James Dwight Dana's studies of volcanoes and of coral islands, 721
Hydrographic elements, Time variability of, determining the dynamic situation in the western north Atlantic (Seiwell), 369

Indians of eastern North America, Torture of captives by (Knowles), 151

Jeannette, Drift of, in the Arctic Sea (Ellsberg), 889

Joerg, W. L. G., Demonstration of the peninsularity of Palmer Land, Antarctica, through Ellsworth's flight of 1935, 821
Jones, Creighton C., and Arthur Ruark, Apparatus for viewing and measuring stereoscopic cloud chamber photographs, 253

Kane, DeHaven and Hall, Arctic voyages and discoveries of (Ekblaw), 877
Knowles, Nathaniel, Torture of captives by the Indians of eastern North America, 151
Kofoid, Charles A., and Lauren E. Rosenberg, Neuromotor system of *Opisthonecta henneguyi* (Fauré-Fremiet), 437
Kohn, Hans, Totalitarian philosophy of war, 57

LeCompte, Stuart B., Jr. (with Burton E. Livingston, see Livingston)
Lee, Hugh J., Peary's transections of North Greenland, 1892–1895, 921
Light absorption, in simple aromatic compounds, Theory of (Herzfeld), 359
Livingston, Burton E., and Stuart B. LeCompte, Jr., Soil-moisture fluctuation under a lawn, as indicated by absorption from porous-porcelain irrigator cones with continuous operation, 227

Marx, Fritz Morstein, Totalitarian politics, 1
Mendelsohn, Charles J., Blaise de Vigenère and the "Chiffre Carré," 103
Meteor studies, Photographic (Whipple), 275

Necturus maculosus Rafinesque. Vascularity in the brains of tailed amphibians (Craigie), 395
Nuclear theory, Status of (Darrow), 351

Opisthonecta henneguyi, Neuromotor system of (Kofoid and Rosenberg), 421
— Conjugation in (Rosenberg), 437

Palmer Land, Antarctica, Demonstration of the peninsularity of, through Ellsworth's flight of 1935 (Joerg), 821
Peary's transections of North Greenland, 1892–1895 (Lee), 921
— extended exploration of Arctic lands culminating in the attainment of the North Pole (R. A. Bartlett), 935
Perkins, Earle B., Animal life of the Antarctic, 833
Plants, flowering, Distribution of self-sterility in (East and Sax), 449
Polar exploration, American, Symposium on, 519

Rehn, James A. G., Connection of the Academy of Natural Sciences of Philadelphia with our first national exploring expedition, 543
Reichelderfer, F. W., Contributions of Wilkes to terrestrial magnetism, gravity and meteorology, 583
Religion, Palaeolithic beginnings of (Barton), 131
Rosenberg, Lauren E., Conjugation in *Opisthonecta henneguyi*, a free swimming vorticellid, 437
— (with Charles A. Kofoid, see Kofoid)
Ruark, Arthur (with Creighton C. Jones, see Jones)

Saunders, Harold E., Flight of Admiral Byrd to the South Pole and the exploration of Marie Byrd Land, 801
Sax, Karl, Completion of paper by E. M. East on the distribution of self-sterility in the flowering plants, 449
Seiwell, H. R., Time variability of hydrographic elements determining the dynamic situation in the western north Atlantic, 369
Soil-moisture fluctuation under a lawn (Livingston and LeCompte), 227
Spectrograph, New type nebular, and solid-glass Schmidt camera (Baker), 323
Stefansson, Vilhjalmur, Ten-year program of Arctic study, 897
Symposia:
American polar exploration, 519
Totalitarian state, 1

Torture of captives by the Indians of eastern North America (Knowles), 151
Totalitarian state, Symposium on, 1

de Vigenère, Blaise, and the "Chiffre Carré," (Mendelsohn), 103
Volcanoes, James Dwight Dana's studies of (Hoffmeister), 721
